Idea

CELEBRATING LIFE WITH KAMENITZA

- At the heart of our campaign is the concept that Kamenitza is more than a beer – it's a symbol of life's richness. It's about the joy found in the everyday, the gatherings where stories and laughter flow as freely as the beer. Our goal is to reverse the brand's decline by not just boosting sales but by embedding Kamenitza in the emotional fabric of our consumers' lives. We're celebrating the roots, the shared stories, the generational bonds – all through the lens of Kamenitza, a beer that's been part of these narratives for decades.

General Approach

CONNECTING WITH THE CORE AUDIENCE

- Our campaign speaks directly to the heart of middle-aged men, aged 35-54, who anchor their families and communities with strength and traditional values. These are men who find beauty in the ordinary, who cherish shared experiences and are deeply rooted in the reality of rural and small-town life. Our narratives will mirror their lives, their values, their connections, making Kamenitza an integral part of their life's tapestry.
