Narrator

THE VOICE OF
WISDOM AND WARMTH

- Our narrator is the unseen yet pivotal character in our story. He's the wise, mature voice that weaves our narrative together. His tone is rich with experience, trust, and a playful twist of words. He speaks not just as a storyteller but as a member of the family, someone who has seen life in all its colors and knows the value of moments shared over a glass of Kamenitza.

Challenges

BREAKING THE CLICHES

- Our challenge is to create a campaign that not only regains consumer trust but also reestablishes Kamenitza's relevance. We'll be shooting summer scenes in winter, requiring creative solutions to maintain authenticity. We will be working for achieving one unique , brave and distinguished cinematic style not typical for the commercials and full with the local spirit. There are some more challenges we will face in a later stage from the preproduction and production.
