

Wardrobe

Visual Transition from Personal Identity to Shared Strength

Wardrobe will play a key role in depicting the transition from civilian to soldier. Initially, characters will wear everyday clothing, tailored to their personalities and environments. As they transition into army roles, their attire will shift to standard military uniforms, customized slightly to hint at their individual roles and specialties within the army, reinforcing the theme of personal identity within the collective.

Pace

Reflective Slowness to Dynamic Action

The pace will be dynamic, mirroring the journey of self-discovery and empowerment. The first half will have a slower, more reflective pace, allowing viewers to connect with the characters' lives and aspirations.

The second part will accelerate, with quick cuts and dynamic shots that convey action, discipline, and teamwork, emphasizing the excitement and fulfillment of military life.
