WORM COLORS

PROVOKING WORM FEELINGS

- Our color scheme will be fresh and vivid, with a special emphasis on green, reflecting Kamenitza's brand identity. We'll use color to evoke emotions, set the mood, and bring our scenes to life. From the lush green of a garden to the warm hues of a family dinner, our colors will be a visual feast, as inviting as the beer we're celebrating.

Styling

MODERN YET TIMELESS

- Our styling will be a mix of modern and authentic, reflecting the real lives of our characters. We're not chasing trends; we're capturing life. Our wardrobe and props will be carefully chosen to add to the authenticity of each scene, ensuring that our characters look and feel like people you might know, people you might share a beer with.
